

# TECHNICAL CERTIFICATION

MATERIAL: **LEATHER**

Font Vergés, SL (Viefe®) with Spanish NIF no. B08101933 and address in Avinguda Pau Casals, 17 - Sant Pere de Torelló (Barcelona, Spain)

Declares:

The leather used in our company meets the ecological criteria in force in the EU (eco-label) that establishes the Decision 2009/563/CE and does not contain:

- PHTHALATES: DNOP, DINP and DIDP
- APE and PFOS
- CHLOROALKANES (C10-C13)
- CARCINOGENIC COLOURANTS CLASSIFIED WITH R PHRASES (R40, R45, R49, R50, R51, R52, R53, R60, R62, R63 or R68) or their combinations.
- ALLERGENIC COLOURANTS OR SENSITIVE FOR THE SKIN
- AZO COLOURING AGENTS

Furthermore, we declare that the leathers used in Font Vergés, SL contain PCF and TCF in amounts less than 0.01 ppm and that they only contain biocidal active substances included in Annex IA of Directive 98/8/CE.

At the same time we ratify that the skins as the production process complies with the CTW regulation.

This work system allows us to know all the traceability of the product from the farm where the Catalan bull has been bred up to the leather that leaves the tannery as the manufacturing process.

The advantages of vegetable tanning are: It is the most respectful treatment with the environment, it is free of chromium and metallic salts, so it does not produce irritations on sensitive skin. A vegetable tanned leather gives the article its unique characteristics; brings tradition, exclusivity and noble aging.
